Subject: RE: Follow-up

Hi Charles,

Regarding the request to discuss EPA's Report on the radiological survey, we would be happy to brief your office on the status of the report, which is still draft. We expect the report to be finalized in the next few weeks. In the meantime, we can report on the raw data as well as the intent of the report and answer any questions you may have.

Please be assured that EPA does not "prohibit" staff from speaking to Congress. However, because several offices at EPA are involved in addressing radiation concerns in the area including the collection and interpretation of data regarding radiological surveys, it is critical that the appropriate EPA representatives are available to discuss the Agency's activities. Mr. Cardarelli's role is related to ensuring operational control of the ASPECT plane to produce radiological data. He does not have the expertise to speak to the status of radiological surveys at the site or to interpret the data.

I hope that we can address your concerns expeditiously. We are currently checking availability of the appropriate EPA reps to brief you/your office and we will get back to you asap with some proposed times. Please let me know if you would also like this update in the form of an official letter.

Carolyn Levine

Charles,

I understand that you have a request in to discuss this issue with EPA technical staff today. I was under the impression from your email that you wanted to deal with this issue through official means. We are working on your request, and would be happy to follow an official transmittal with a briefing for your office from technical staff. I'm cc'ing Carolyn Levine from my office who is running point for the Agency on this issue.

Thanks,
Arvin

Mr. Ganesan -

Please review the attached letter as a follow-up to our September 7, 2011 meeting. Any responsive communication should be in the form of official correspondence. Thank you.

Charles A. Flint, II

Legislative Counsel

Congressman Dennis A. Ross (FL-12)

404 Cannon Office Building

Phone: 202-225-1252

Fax: 202-226-0585
